SUMMARY

Third-year student in IT and Econometrics. My main goal is to further expand my knowledge of web development.

Proficient in **JavaScript(ReactJS), CSS, HTML and**

fundamentals of C# and T-SQL. Building quality websites and applications gives me a lot of satisfaction. I would like to specialize in programming mobile and web applications.

PROJECTS

WEATHER APP

- Mobile application that was created at the workshops organized by **Facebook**, later developed on my own.

- Application allows you to check the current and long-term weather. Data is taken from REST API
