SUMMARY

Third-year student in IT and Econometrics. My main goal is to expand my knowledge of web development. Proficient in **JavaScript(ReactJS), CSS, HTML and fundamentals of C# and T-SQL.** Building quality websites and applications gives me a desire to delve further into a subject of mobile and web development.

PROJECTS

WEATHER APP

Developed a mobile application designed during the international student workshops organized by Facebook, allowing the user to check current and long-term weather.

Used technologies: **React Native**, React Hooks, Context API, REST API

Repository: Link

CONTACT BOOK
Designed and implemented CRUD app called Contact Book allowing the user to store and manage contacts.

Used technologies: **React**, **Redux**, React Router, React Hooks, SCSS

Repository: Link

IP ADDRESS TRACKER

Created an interactive web application which fetches information about given address IP and displays associated geolocation.

Used technologies: **React**, React Hooks, APIs

Repository: Link

CERTIFICATES

During the learning process, I obtained Microsoft certificates:
98-375:MTA: HTML5 Application Development Fundamentals
98-382:MTA: Introduction to Programming using JavaScript
98-361:MTA: Software Development Fundamentals
98-364:MTA: Database Fundamentals
